genSpace Knowledge Sharing

- Kaiser lab (Computer Science department)
- Suite of collaboration tools for geWorkbench users based on popular social networking motifs
- Logs all user activities to genSpace server
- Facebook-like friends (direct collaborators) and networks (colleagues from same lab, institution or community)
- Recommends tools and workflows in "people like you" style, from entire user base or specific to selected network(s)
- Full integration with geWorkbench-web
- Shared research notebook documents the details of all analyses
- Presence facilities include available/away/offline and live activity feed
