

Racecar

A Programming Language for Kids

Sam Kohn: Project Manager Guru

Alex Fields: Language Guru Guru

Mason Silber: System Integrator Guru

Jeremy Spencer: System Architect Guru

Colfax Selby: Verifier and Validator and Text Box Guru

Big Problems Facing America

- Global Warming
- Poverty
- OS
- Learning to drive before learning to code

DEMO

Guiding Principle:
Make Everything Easy

Buzzwords

Kids

Teachers

Parents

Language design

Lesson Plan

Syntax

- Minimize punctuation
 - Function calling like in OCaml and Haskell
 - Newline-terminated statements unlike C and Java
- Keywords are real words!
 - drive
 - turn
 - number
 - word
 - define
 - set
 - etc.

Semantics

Guiding principle: It should sound like English

Examples:

- `drive forward 5 steps`
- `turn left`
- `define myFun using myVar (number)`
- `set myVar to getCarPosition`
- `repeat 10 times`

Development and Runtime Environments

Development Software

- Git & GitHub
- Google Drive
- All kinds of text editors

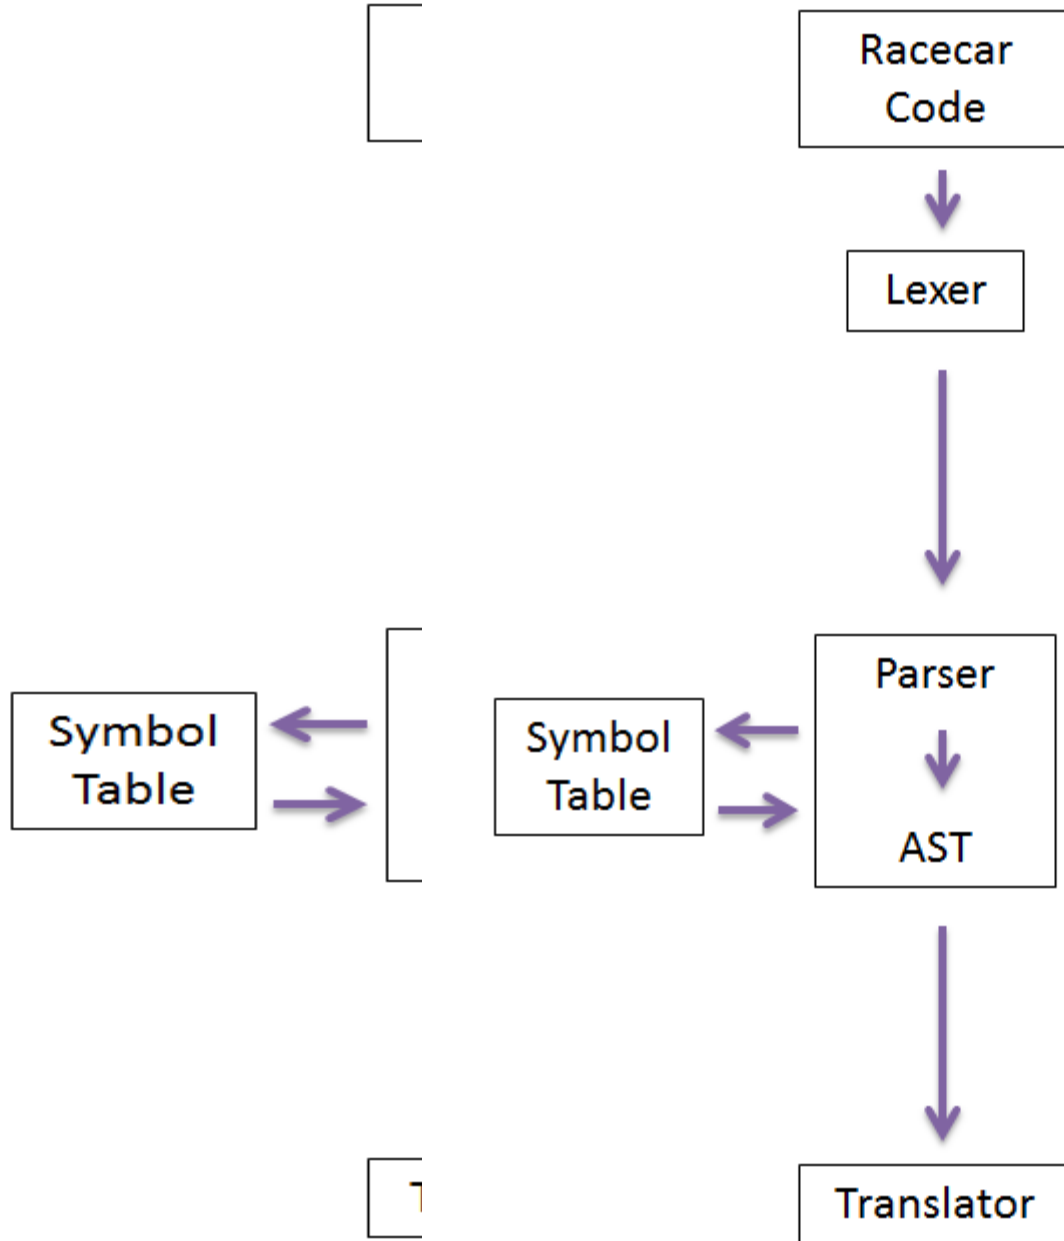

github
SOCIAL CODING

Runtime Environment

- Custom-built GUI to run Racecar programs
 - Python Lex/Yacc (PLY)
 - Python TkInter framework
 - Python image library (PIL)
- Remember, it's supposed to be easy!
 - Immediate visual output of code
 - Fully integrated development environment
 - Error checking and code verification

System Architecture

wards 5 steps

rive",DRIVE)
 rds",FORWARD)
 ",NUMBER)
 eps",STEPS)

mand (None)

5 (NUMBER)

on.FORWARDS)\n

Semantic Analyzer

Semantic Analyzer

- Traverses AST twice
 - First
 - checks for functions and adds them to the symbol table
 - Second
 - everything else
 - type checking
 - scoping
- Allows for function calls to appear before declarations

Testing

Frameworks

- Test suite:
 - Iterative test
 - Specific test
 - of the com
 - End to end
- Code validation
 - Style guide
 - Standard
 - Similar to

Lessons Learned

Or: How I learned to stop worrying and love Python

What went right

- Using Python for everything

Python: the Racecar of real-people programming languages

- Iterative + end-to-end testing
- Team Roles
 - but not binding

What went wrong

TkInte

Not en
specific

- lc
- L
- E

Big Problems Facing America

- Global Warming

- Poverty

- OS

- ~~Learning to drive~~
~~before learning to~~
~~code~~

Good
luck!

Thank

You!
