9/16/03

Janak J Parekh

2 Administrivia

- Are you working on HW#1?
- I have some recitation materials from Andy I'll post for everyone else
 - Command-line parameters
 - String-to-Integer conversion
 - String class
 - Keyboard input
 - File I/O
 - StringTokenizer
 - Javadocs
- I'll put up some other resources
 - X-Win32, an X server

3 Agenda

- Minor points from last time
 - What if I had put Company code from last time all into main() instead of using a separate constructor?
 - Initializing arrays – new() or {}
- Finish lists, basic big-Oh notation

4 Lists

- How to do unordered...
 - Insert()?
 - Delete()?
 - Find()?
 - Display()?
- How to do ordered...
 - Insert()?
 - Find()? Book page 57
 - lowerBound, upperBound

5 Next time...

- Costs: big-Oh notation
- Sorts!
