

Advice for 3-2 Combined Plan CS Students

Stephen A. Edwards

Columbia University

Fall 2019

Time is of the Essence

You have exactly two years at Columbia

You must take 60 non-transferred points

Average class is 3 points

$60 \div 3 \div 4 = 5$ classes per semester

Typical load: 4 CS + 1 elective

Flaking out on classes, for whatever reason, is the number one problem combined plan students have.

Extending your time here is nearly impossible.

Advising

I am the CS advisor for Combined Plan students
Email me or stop by for an appointment anytime
(sedwards@cs.columbia.edu)

Your “class dean” can advise on non-CS class questions

I know remarkably little about, e.g., English classes

Intrepid administrator **Clarissa Peña** helps with bureaucracy
(clarissa@cs.columbia.edu)

She's on your side

CS Department Requirements

See the QuickGuide: CS website → Academics → BS/BA Programs → BS in Computer Science (SEAS)

- ▶ 8 class core requirement
Data structures, theory, fundamentals, etc.
You will have done some, but not all, of the core. Finish
- ▶ 21 points (=7 classes) of track courses
Some required, some “choose three from these seven,”
others advisor-approved
- ▶ 15 points (=5 classes) of general technical electives
3000-level or above in science (including CS),
engineering, or mathematics.

Importing Classes

Clarissa and I are here to help with the import process

Importing means you skip the class at Columbia; it does not impact the 60 point requirement.

- ▶ Submit your import requests through <http://mice.cs.columbia.edu>
- ▶ I'm happy to approve imports of most basic classes
- ▶ I may refer you to the instructor for advanced classes

Graduating

Columbia Student Services Online (SSOL: ssol.columbia.edu)

Among other things, has a Degree Audit Report (DAR)

An unreliable indicator of your progress

Your DAR is usually unaware of imports

Not to worry → Clarissa and I clear you to graduate

We follow your transcript and imported classes
