Teaching Assistant Student Evaluations for Naser AIDuaij

1. The best TA of all the TAs I have interacted with at Columbia
2. Good TA
3. Awesome TA. Always ready to help. I wonder how much he works. Always replies to posts on Piazza.¹ Fair with grades. A good person by nature. And ultimately it appears that he loves to help and code.
4. Main interaction was on the Piazza board. Provided helpful answers to questions
5. He goes above and beyond the call of duty. He is very nice and extremely helpful. Definitely a solid TA!
6. Good work, appreciate it! :)
7. Naser is very approachable, helpful and encouraging. The best TA I had in Columbia so far. I would nominate him for a TA award.
8. Helped us alot, even late at night, amazing!!
9. Naser was awesome. Super available, nice, approachable, and knowledgable. From what I could see, he did the most work out of any of the TAs.
10. He is the nicest TA I ever known. He is the most patient one.
11. Naser was helpful, but he could have been more prepared for office hours, and he could have given some clearer direction in project discussions.
12. For all: great job on the discussion boards - this venue was my favorite part of the class.

¹Official online discussion board used for this course.
